

Age Group	Semester/Hour	Class name and Description
19 mo-5K	Fall/ Hour 1	<p>Music & Movement Combined with Elementary ages Sing and dance while helping little brains in a way only music can, all while praising God.</p>
	Fall/ Hour 2	<p>Sensory Play Learn through lessons that engage the senses. Sensory bins, gross motor games, and hands-on activities will reinforce concepts for these early learners.</p>
	Spring/ Hour 1	<p>Monkeys on the Move (both 1st/2nd Hour) Shake your sillies out and wiggle your waggles away as we sing, dance, and learn fun finger plays. We'll also make crafts, play instruments, and read stories that relate to our theme.</p>
	Spring/ Hour 2	<p>Monkeys on the Move Shake your sillies out and wiggle your waggles away as we sing, dance, and learn fun finger plays. We'll also make crafts, play instruments, and read stories that relate to our theme.</p>
1st-4th	Fall/ Hour 1	<p>Music & Movement Sing and dance while helping little brains in a way only music can, all while praising God.</p>
	Fall/ Hour 2	<p>Through the Eyes of a Paleontologist Students will dip their toes into the very first evidence of human civilization in ancient Mesopotamia and watch how it brings them through to modern-day Iraq and our current world today. The students get to do this <i>while</i> seeing an overlapping theme of DRAGONS!!!</p>
	Spring/ Hour 1	<p>Crazy Kid Concoctions Art meets science in this hands-on class. Students</p>

		will have the chance to concoct fun art supplies like paint, dough, and paste. Once the supplies are made, students will use them for various projects.
	Spring/ Hour 2	Health/PE Students will gain an understanding that their health is ultimately about stewardship: managing what they have the best they can.
5th-8th	Fall/ Hour 1	History Meets Duct Tape Mix cool stories of knights and warriors with cardboard and duct tape and you have an exciting hands-on class that is tons of fun by making weapons and armor!
	Fall/ Hour 2	Storm Chasers Step into the world of those who throw caution to the wind... literally. Storm chasers aren't just "cowboys" or "adrenaline junkies." They are our early warning system. They keep everyone safe. Tornadoes, hurricanes, derechos, blizzards.... but it's not just based on guesses and gut instincts. It's based on science.... the science of meteorology.
	Spring/Hour 1	Dude Perfect Science Come learn all the secrets of the popular show, "Dude Perfect". Students will watch a clip of a trick shot or stunt, learn the basic physics behind it and then get to perform or try their hand mastering the stunt/trick.
	Spring/ Hour 2	Sharpie Art This class will prove Sharpies can be used to make beautiful art. Each week the students will use Sharpies to create totally different fun and useful items. Possibilities include fabric to create totes, Zentangles, Op Art, shrinky dinks, foil and embossing, blending colors with rubbing alcohol, etc.

9th-12th	Fall and Spring/ Hour 1	<p>Forensic Science (Master Books)</p> <p>A fascinating study of over twenty scientific disciplines offering investigative work to the judicial system. Master Books' Intro to Forensic Science from a Biblical Worldview reveals God as the Author and Designer of science and the need for Christian investigators reporting to the judicial system. Scripture, case studies, and the knowledge of various scientific disciplines are taught throughout.</p> <p>*Homework and a textbook will be required. Can be used as 1 HS credit if completed at home.</p>
	Fall and Spring/ Hour 2	<p>IEW</p> <p>While writing about topics from Explorers to Modern Times, students will develop advanced writing skills such as thesis statements, MLA format, persuasive essays, research papers, and more. Novice and experienced writers alike will benefit from the structure and style taught in this class.</p> <p>*Homework will be required. Can be used as writing portion of English credit.</p>

*Parents are responsible for the tests, hours accumulated, paperwork, etc. needed for record keeping.
